

Things to keep in mind:

Please join me in congratulating LaserBits on beginning its 15th year in the business! Having recently celebrating my 7-year anniversary with this company, I am proud to say I have been here nearly 1/2 of their time in this industry. I have thoroughly enjoyed working for LaserBits/LaserUniversity. Share your great LaserBits and LaserU stories on our [Facebook page](#).

Laser Spotlight

Each month we showcase an item, product or skill from LaserU. We give a summary of the item and provide links for more information. This month we will look at **spray painting tiles**. This comes from our Project Center and is titled, **Ceramic Tiles w/ Black Spray Paint**.

Look at the detail I was able to impart onto this tile. Every hair of my son's head is shown...the smile in his eyes comes through.

Images can be engraved on a single tile or using tools in DRAW, the image can be split to any number of tiles.

For more information on **spray painting tiles** see the **Project Center** - scroll down to **Ceramic Tiles w/ Black Spray Paint**.

Please send questions and comments to laseru@laserbits.com

See you next month with our next **The Laser Engraver** Newsletter.
