

Things to keep in mind:

Come visit us on April 1...no fooling! I am coming back to Phoenix to attend the LaserBits Open House 10am - 3pm. Mike hasn't told me yet what he has cooked up for me, but I will be there to answer your questions. I look forward to meeting LaserU subscribers!

Laser Spotlight

Each month we showcase an item, product or skill from LaserU. We give a summary of the item and provide links for more information. This month we will look at **making car magnets**. This comes from our Project Center and is titled, **Car Signs - Magnetic**.

Using Rowmark FlexiColor and our new magnetic sheet you can create any type of magnet for cars, refrigerators, memo boards, etc. The only trick is getting the plastic sheet to align properly on the magnetic sheet. We provide a great how-to video to get it done right!

For more information on **car magnets** see the **Project Center** - scroll down to **Car Signs - Magnetic**

Please send questions and comments to laseru@laserbits.com
To learn more, visit laseru.com and click on the blue buttons on the right.

See you next month with our next **The Laser Engraver** Newsletter.
