

**Greetings:**

Don't forget to check us out on Facebook. Our page is for both LaserBits and LaserUniversity. Click the link below or visit [LaserBits](http://LaserBits) and click on the Facebook logo on the main page.

**Laser Spotlight**

When we launched our Video Center 2 years ago we knew there was a need for showcasing hands on techniques, but we were not sure how much content we would brainstorm to add. We launched with five videos. Today we are at 28! Be sure to check our Video Center the next time you log in. In addition, please email us your ideas for expanding - [laseru@laserbits.com](mailto:laseru@laserbits.com)

Welcome to the The Video Center where you will learn how to perfect certain hands-on techniques.

Keep in mind that this area will not provide detailed steps in CorelDRAW as it focuses on the techniques that are used outside of the Corel programs. For more detailed instructions on DRAW or PAINT skills, visit The Corel Center in the left menu

Project		
<b>01 - LiquaMASK</b>		
Application		Removal
<b>02 - Color Fill</b>		
03 - Laser Foil		
04 - Paper Mask
