

Things to keep in mind:

Don't forget about the great Search feature of LaserU! Often it can be hard to know where to look for an item - the Learning, Corel or Project Center! Even I (the creator) sometimes forget where I placed a piece of content! I use the Search tool. It is located in the upper right corner. Simply type in what you need and hit "Enter" on the keyboard. You won't waste time searching anymore. Let us do it for you.

paced basic and advanced projects for any user information is right at your fingertips!

Laser Spotlight

Each month we showcase an item, product or skill from LaserU. We give a summary of the item and provide links for more information. This month we will look at QR Codes. This comes from our Project Center **Data Matrix & QR Codes** and the Learning Center **Course 18 Lesson 9**.

Many people have QR Code reader apps on their phones these days. Providing your customers with ways to display a lot of information or avenues to visit their website is crucial.

For more information on this product see the **Project Center & Learning Center**.

Please send questions and comments to laseru@laserbits.com
To learn more, visit laseru.com and click on the blue buttons on the right.

See you next month with our next The Laser Engraver Newsletter.
