

Things to keep in mind:

Laser Spotlight

Each month we showcase an item, product or skill from LaserU. We give a summary of the item and provide links for more information. This month we will look at Pen Fixtures. This comes from our Project Center **lesson titled Laser Flex.**

We now have Laser Flex Heat Transfer Sheets! This product is so fun to work with and you are only limited by your imagination in how to use it and the designs you can create.

Laser Flex is available in white, black, sunny yellow, pacific blue, red, orange, green, and navy blue.

For more information on this product see the **Project Center.**

Please send questions and comments to laseru@laserbits.com

To learn more, visit laseru.com and click on the blue buttons on the right.

See you next month with our next The Laser Engraver Newsletter.
