

## Laser Spotlight

Each month we showcase an item, product or skill from LaserU. We give a summary of the item and provide links for more information. This month we will look at **Straightening Images**. For more information you can see the Corel Center item titled **Straightening Images**.

If you have ever scanned an image crooked or noticed that a picture was taken slight askew there is a very simple way to fix it in CorelDRAW that was added in version X4.

Go from this crooked image:

For more information on how the above was completed, visit LaserU's **Corel Center** and see the item Straightening Images.

Please send questions and comments to [laseru@laserbits.com](mailto:laseru@laserbits.com)

See you next month with our next **The Laser Engraver** Newsletter.
