

Greetings:

We just got back from Las Vegas and are trying to get caught up. I had a fantastic time. It is always neat to finally meet so many LaserU subscribers. Putting a face to a name is great and I get to hear face-to-face feedback on the site. I hope you had a great time too!

Laser Spotlight

Each month we showcase an item, product or skill from LaserU. We give a summary of the item and provide links for more information. This month we will look at unique frames. This comes from our Project Center **lesson titled Glass Photo Stands**.

These glass photo stands really showcase the images. The stands can either be engraved (top image) or can be used with CerMark for Tile & Glass (lower image). And if you are ever in Des Moines or Cedar Falls, Iowa, check out Jokers! They kindly lent me the logo and images.

For more information on this product see the **Project Center**.

Please send questions and comments to laseru@laserbits.com
To learn more, visit laseru.com and click on the blue buttons on the right.

See you next month with our next The Laser Engraver Newsletter.

Kathryn
