

Things to keep in mind:

Have questions about engraving and cutting settings? Don't forget to check out the Settings Calculator. We have Glass Tube laser settings. These are for Chinese lasers, such as, Rabbit, Red Sail and others! If you have a glass tube laser you can use these settings no matter the manufacturer.

Laser Spotlight

Each month we showcase an item, product or skill from LaserU. We give a summary of the item and provide links for more information. This month we will look a **Wine Caddy**. This comes from the Project Center.

This caddy was designed in DRAW and cut out of 1/4" acrylic sheets. The thicker sheet allows for a stronger caddy.

For more information on this see **Wine Caddy** in the Project Center.

Get our Settings Calculator App:

iPhone/iPad: http://tiny.cc/iTunes_SC
