

**Things to keep in mind:**

Have questions about engraving and cutting settings? Don't forget to check out the Settings Calculator. We have recently added Glass Tube laser settings. These are for Chinese lasers, such as, Rabbit, GCC, Red Sail and others!

**Laser Spotlight**

Each month we showcase an item, product or skill from LaserU. We give a summary of the item and provide links for more information. This month we will look at the **Color Filling Granite**. This comes from our Project Center titled **Color - adding it to stone, granite & marble**.

We have five great colors to select: blue, red, white, silver and gold.

Look at red, silver & blue on a special letter opener!

For more information on this product, see **Color - adding it to stone, granite & marble** in the **Project Center**.

Please send questions and comments to [laseru@laserbits.com](mailto:laseru@laserbits.com)

See you next month with our next **The Laser Engraver** Newsletter.
