

Things to keep in mind:

Don't forget to check us out on Facebook. Our page is for both LaserBits and LaserUniversity. Click the link below or visit [LaserBits](#) and click on the facebook logo on the main page.

Kerrie posts almost daily with laser engraving and product tips.

Laser Spotlight

We are proud to introduce a NEW addition to LaserUniversity. It is called the **Video Center**.

In this new center we have created videos but different from the screen-capture videos featured in most of our lessons. These videos are not of inside a program but feature hands-on techniques. Here you will still hear my voice but now you also see my hands completing tasks, such as, applying CerMark, color-filling, using a MultiMat and more. We currently have 14 videos and will continue to add to this library. If you have any ideas to add to the collection - PLEASE email me!

The link to the Video Center can be found in the left panel of LaserU below the Project Center. Here is what the main screen looks like:

Welcome to the The Video Center where you will learn how to perfect certain hands-on techniques.

Keep in mind that this area will not provide detailed steps in CorelDRAW as it focuses on the techniques that are used outside of the Corel programs. For more detailed instructions on DRAW or PAINT skills, visit The Corel Center in the left menu

Project		
01 - LiquaMASK		
Application		Removal
02 - Color Fill		
03 - Laser Foil		
04 - Paper Mask		
05 - MultiMat		
06 - Stencils		
07 - Using a Jig & Caliper		
08 - Stone Color Fill		
09 - CerMark		
Spray	Tape	Solution (brush)
10 - Klikits		
11 - LaserLIGHTS		

Please send questions and comments to laseru@laserbits.com

See you next month with our next **The Laser Engraver** Newsletter.
