**Laser Spotlight**

Each month we showcase an item, product or skill from LaserU. We give a summary of the item and provide links for more information. This month we will look at **engraving microsuede**. This comes from our Project Center and is titled, **Suede Plaques**.

In this lesson we take you through the steps to learn how to use a canvas and a piece of microsuede to create really unique items for home decor! Both images and text engrave really well.

For more information on **engraving microsuede** see the **Project Center** - scroll down to **Suede Plaques**.
