

Greetings:

Hello! We recently made a great change to LaserU but you probably won't notice! The way the site used to work was that a subscriber had to log in using their username and password and then to access any items, such as a PDF file or a video, the log in credentials needed to be re-entered. Well, after much searching on the part of our technical guru for a resolution and 4 years.....that issue has been resolved. The need to re-enter the log-in data is no longer required! We hope you enjoy the easier access to the protected files, even if you didn't realize it!

Laser Spotlight**Wedding season is upon us and we have a product idea for you!**

Each month we will showcase an item, product or skill from LaserU. We will give a summary of the item and provide links for more information. This month we will look at **Acrylic Photo Plaques** from our Project Center under two files titled Acrylic Photo Plaques and Acrylic Photo Plaques - Double Sided.

In the first example, the existing text can be used. It is a common passage in wedding vows. Another idea is that the plaque can replicate the wedding invitation.

In the second example, a picture of the couple can be engraved. The engagement photo can be used, a wedding photo can be used, or just a great picture of them!

For more information on how the above, visit LaserU's **Project Center** and see Acrylic Photo Plaque ideas.

Please send questions and comments to laseru@laserbits.com

See you next month with our next **The Laser Engraver** Newsletter.

Kathryn
