## Laser Spotlight

Each month we showcase an item, product or skill from LaserU. We give a summary of the item and provide links for more information. This month we will look at unique frames. This comes from our Project Center lesson titled **Party Favors - Dog Tags**.

These party favors were easily made with our Dog Tag Fixture. The fixture holds 10 tags at a time allowing for mass production. The DRAW file (that contains the layout) is a free download from the LaserBits site. The tags are a great give-a-way at any birthday party - boy or girl - as they are available in an array of colors. From personal experience, the kiddos at my son's party said these were the, "coolest!" Score one for mom! :)

For more information on this product see the **Project Center**.
