

Things to keep in mind:

We have added 7 glass tube lasers settings (wattages ranging from 40 - 150) to our Settings Calculator. The settings cover 17 different material/substrate types.

Laser Spotlight

Each month we showcase an item, product or skill from LaserU. We give a summary of the item and provide links for more information. This month we will look at **3 types of stone**. This comes from our Learning Center: Course 8 titled - **Marble, Granite & Stone**.

The updated Course 8 expands from marble to now include granite and stone. In addition, we show to add color and photo engrave on these timeless pieces.

For more information on Course 8 see the **Learning Center**.

Please send questions and comments to laseru@laserbits.com

See you next month with our next **The Laser Engraver** Newsletter.
